Santee Lakes Fishing Piers
San Diego County

12 Santee Lakes Fishing Piers San Diego County

This is one of the two piers to be replaced; the vertical posts are supporting the end of the pier because the floats underneath have deteriorated.

12 Santee Lakes Fishing Piers San Diego County

This is what the new piers will look like.

12 Santee Lakes Fishing Piers San Diego County

Note the lower spaces in the railing for wheelchair users.

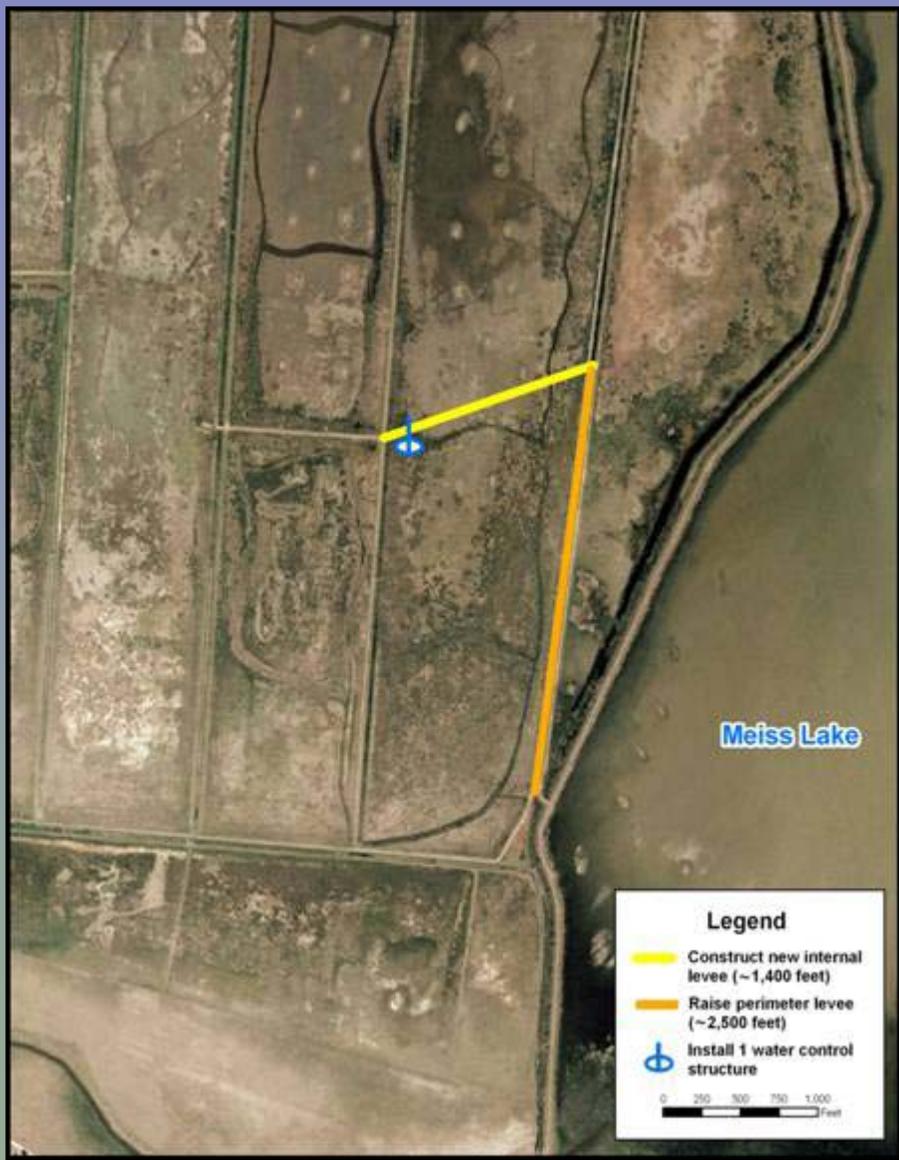

**DFG Wildlife Area
Wetland Enhancement
Projects 2008-09**
Siskiyou, Butte, Glenn, Merced,
and San Joaquin Counties

0 10 20 30 40 Miles
13 WCB 04/28/2009 rs

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09

Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Butte Valley Wildlife Area, Unit 8B

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Location of proposed new levee to allow the upper portion of the wetland to be flooded more often and more efficiently.

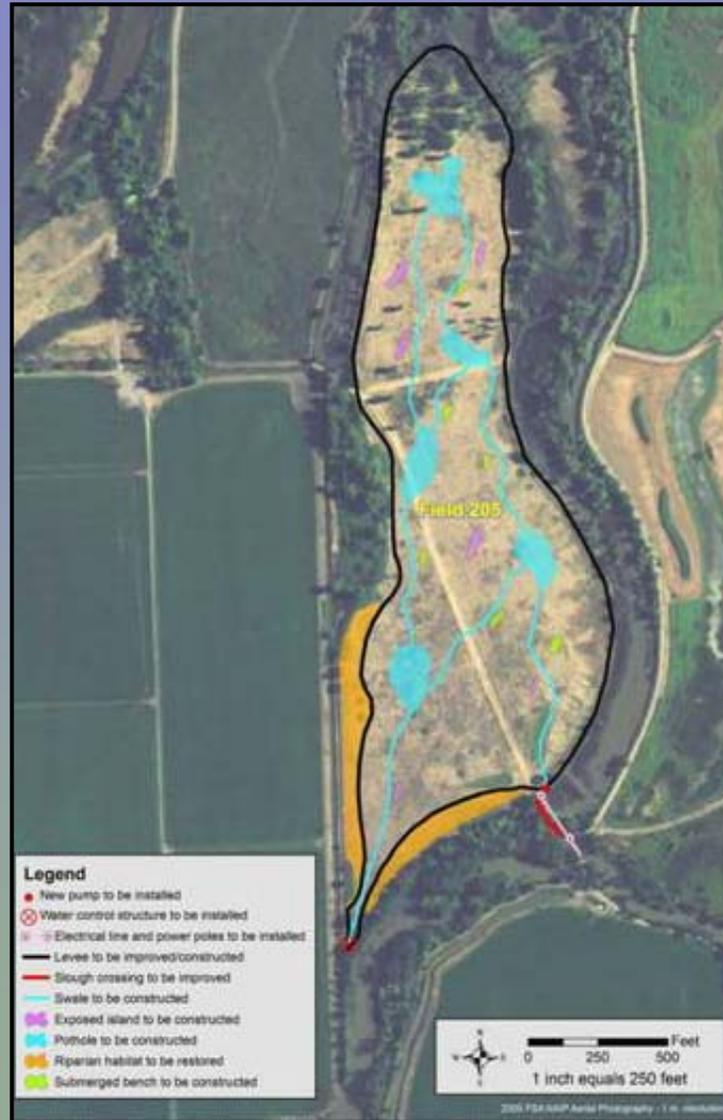

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Shallow managed wetlands provide habitat for many species.

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09

Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Upper Butte Basin Wildlife Area
Howard Slough Field 205

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

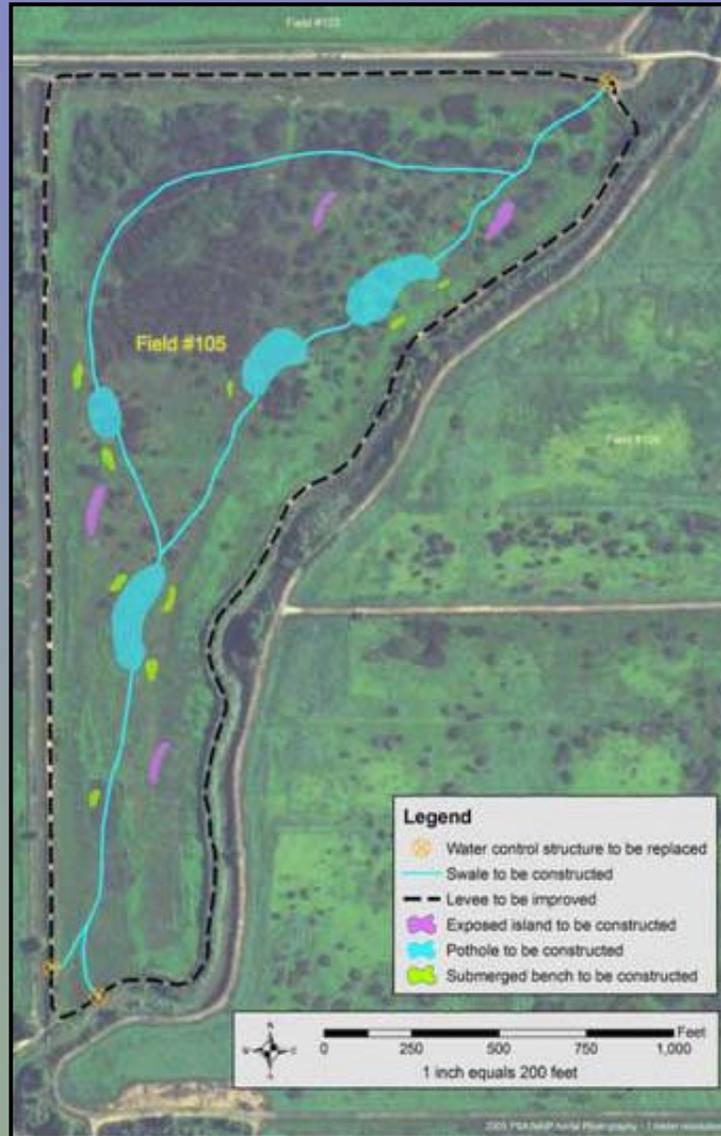

Flooding problems, which occur nearly every year at Upper Butte Basin Wildlife Area's Field 205 of the Howard Slough Unit, will be eliminated with the proposed project.

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Upper Butte Basin Wildlife Area's Field 205 of the Howard Slough Unit. Oaks and riparian vegetation will be planted on right, wetlands constructed and improved on left.

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Upper Butte Basin Wildlife Area
Little Dry Creek Field 105

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Drainage problems at Upper Butte Basin Wildlife Area's Field 105 of the Little Dry Creek Unit will be eliminated with the proposed project.

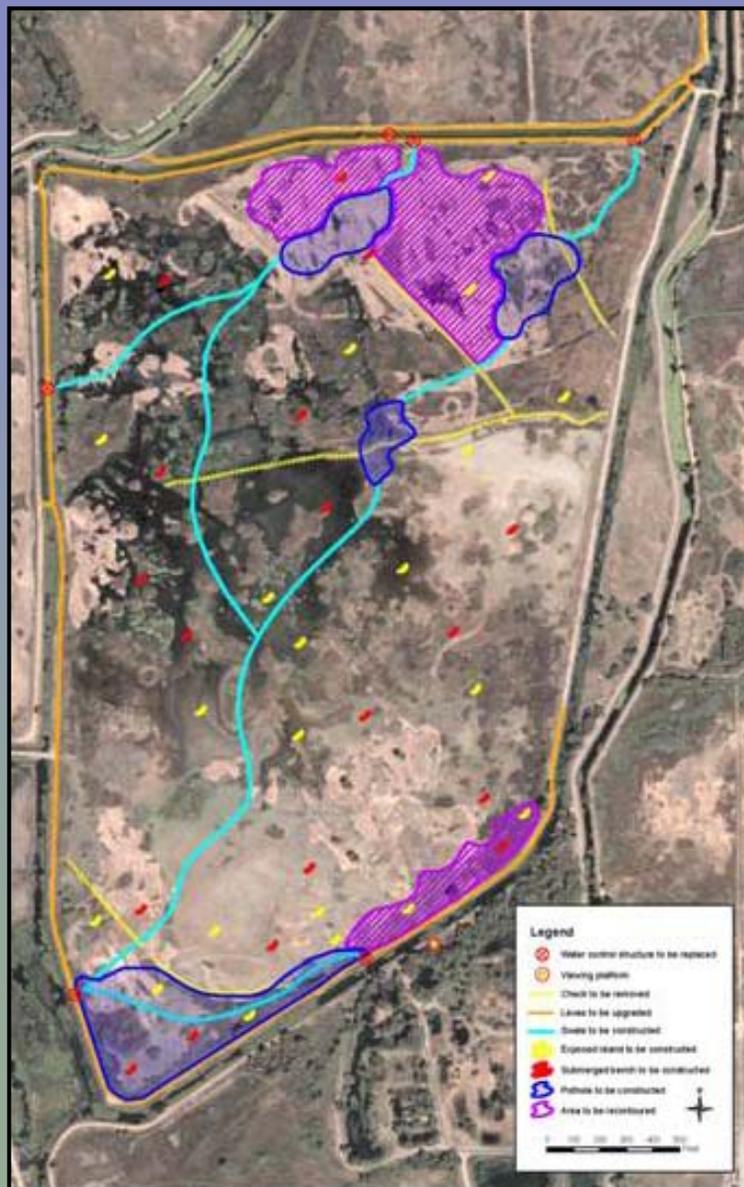

13 DFG Wildlife Area Wetland Enhancement Projects, 2008/09 Siskiyou, Glenn, Butte, San Joaquin, and Merced Counties

Upper Butte Basin Wildlife Area's Field 105 of the Little Dry Creek Unit.
Inlet structure to be replaced.

Kahala

Widgeon

La Cienega de Chicca

Subject Areas

**Tulare Basin Wetland Enhancement
Kern County**

17 Tulare Basin Wetland Enhancement Kern County

Kahala Site

17 Tulare Basin Wetland Enhancement Kern County

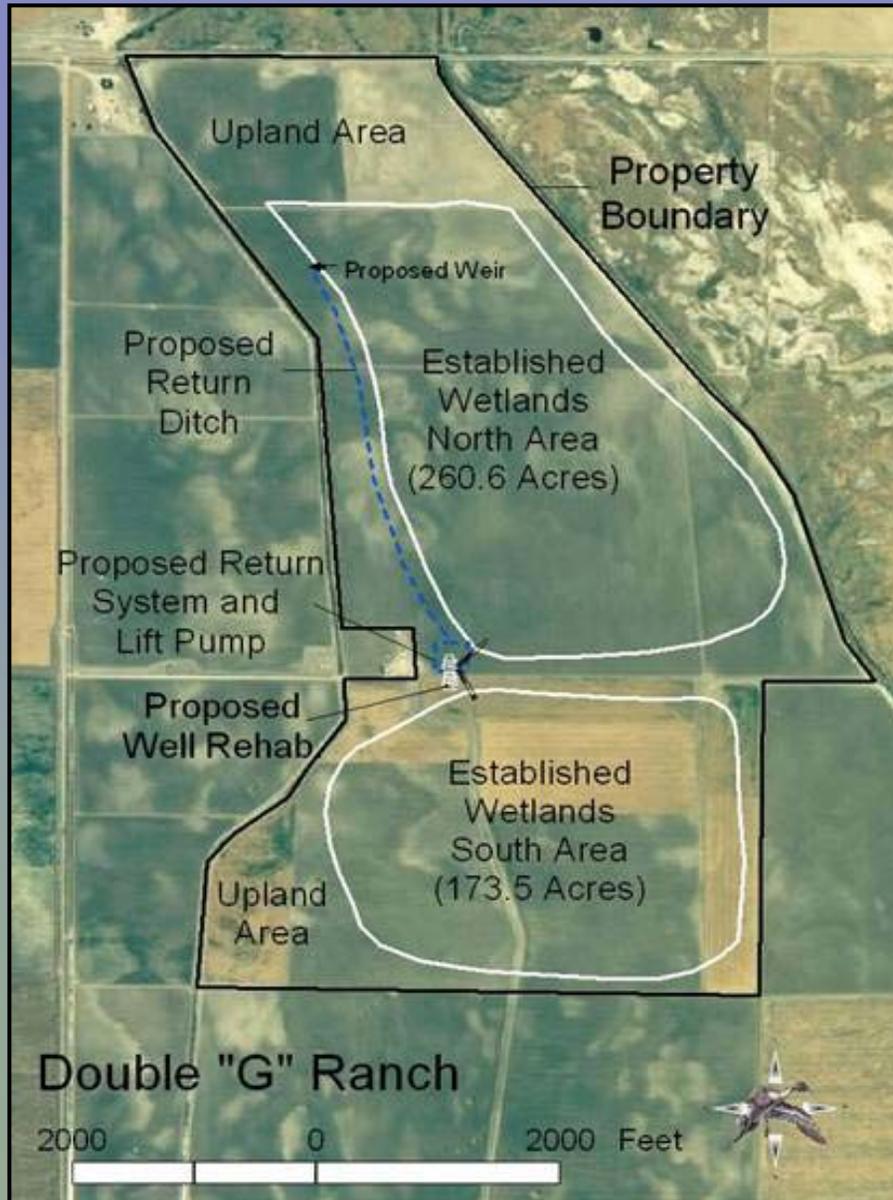

Existing wetlands at Kahala can only be maintained when surface water is available.

17 Tulare Basin Wetland Enhancement Kern County

Location of proposed well at Kahala.

17 Tulare Basin Wetland Enhancement Kern County

La Cienega de Chicca Site

17 Tulare Basin Wetland Enhancement Kern County

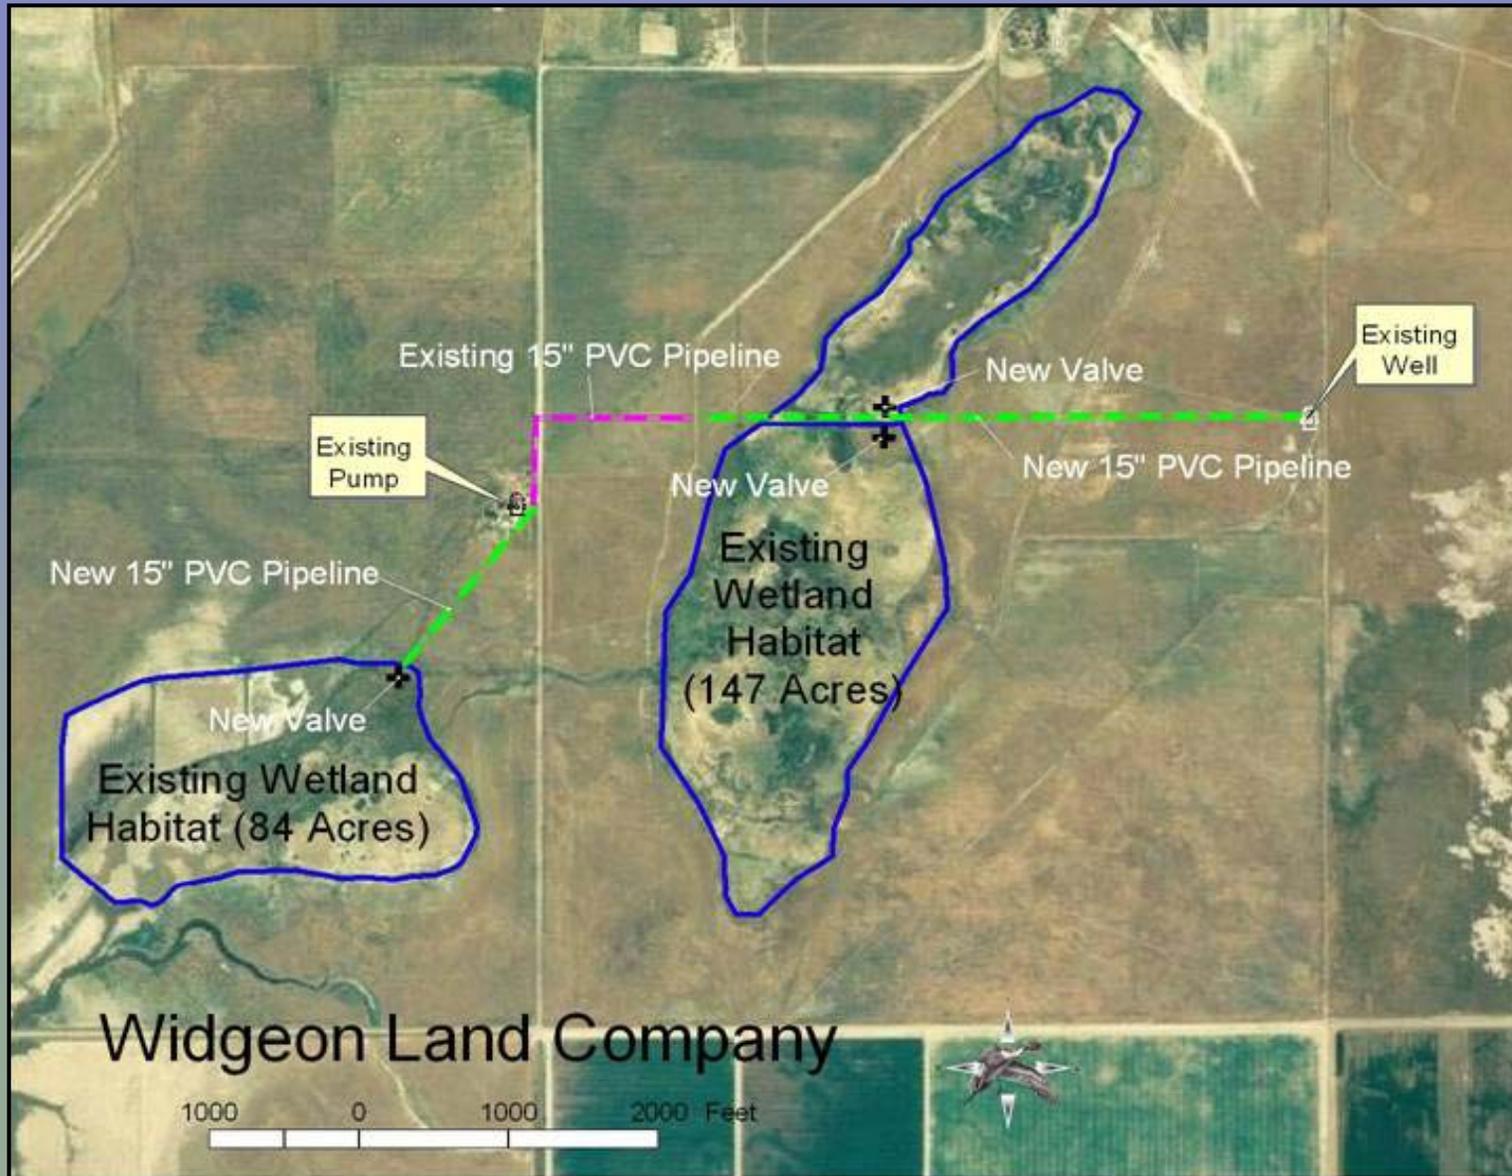

Existing wetlands at Cienega de Chicca have more reliable water source, but still depend on surface deliveries

17 Tulare Basin Wetland Enhancement Kern County

Existing well and pump at Cienega de Chicca need rehabilitation.

17 Tulare Basin Wetland Enhancement Kern County

Widgeon Site

17 Tulare Basin Wetland Enhancement Kern County

Existing deep well at Widgeon is new and working well. Proposed pipeline will follow ditch in background.

17 Tulare Basin Wetland Enhancement Kern County

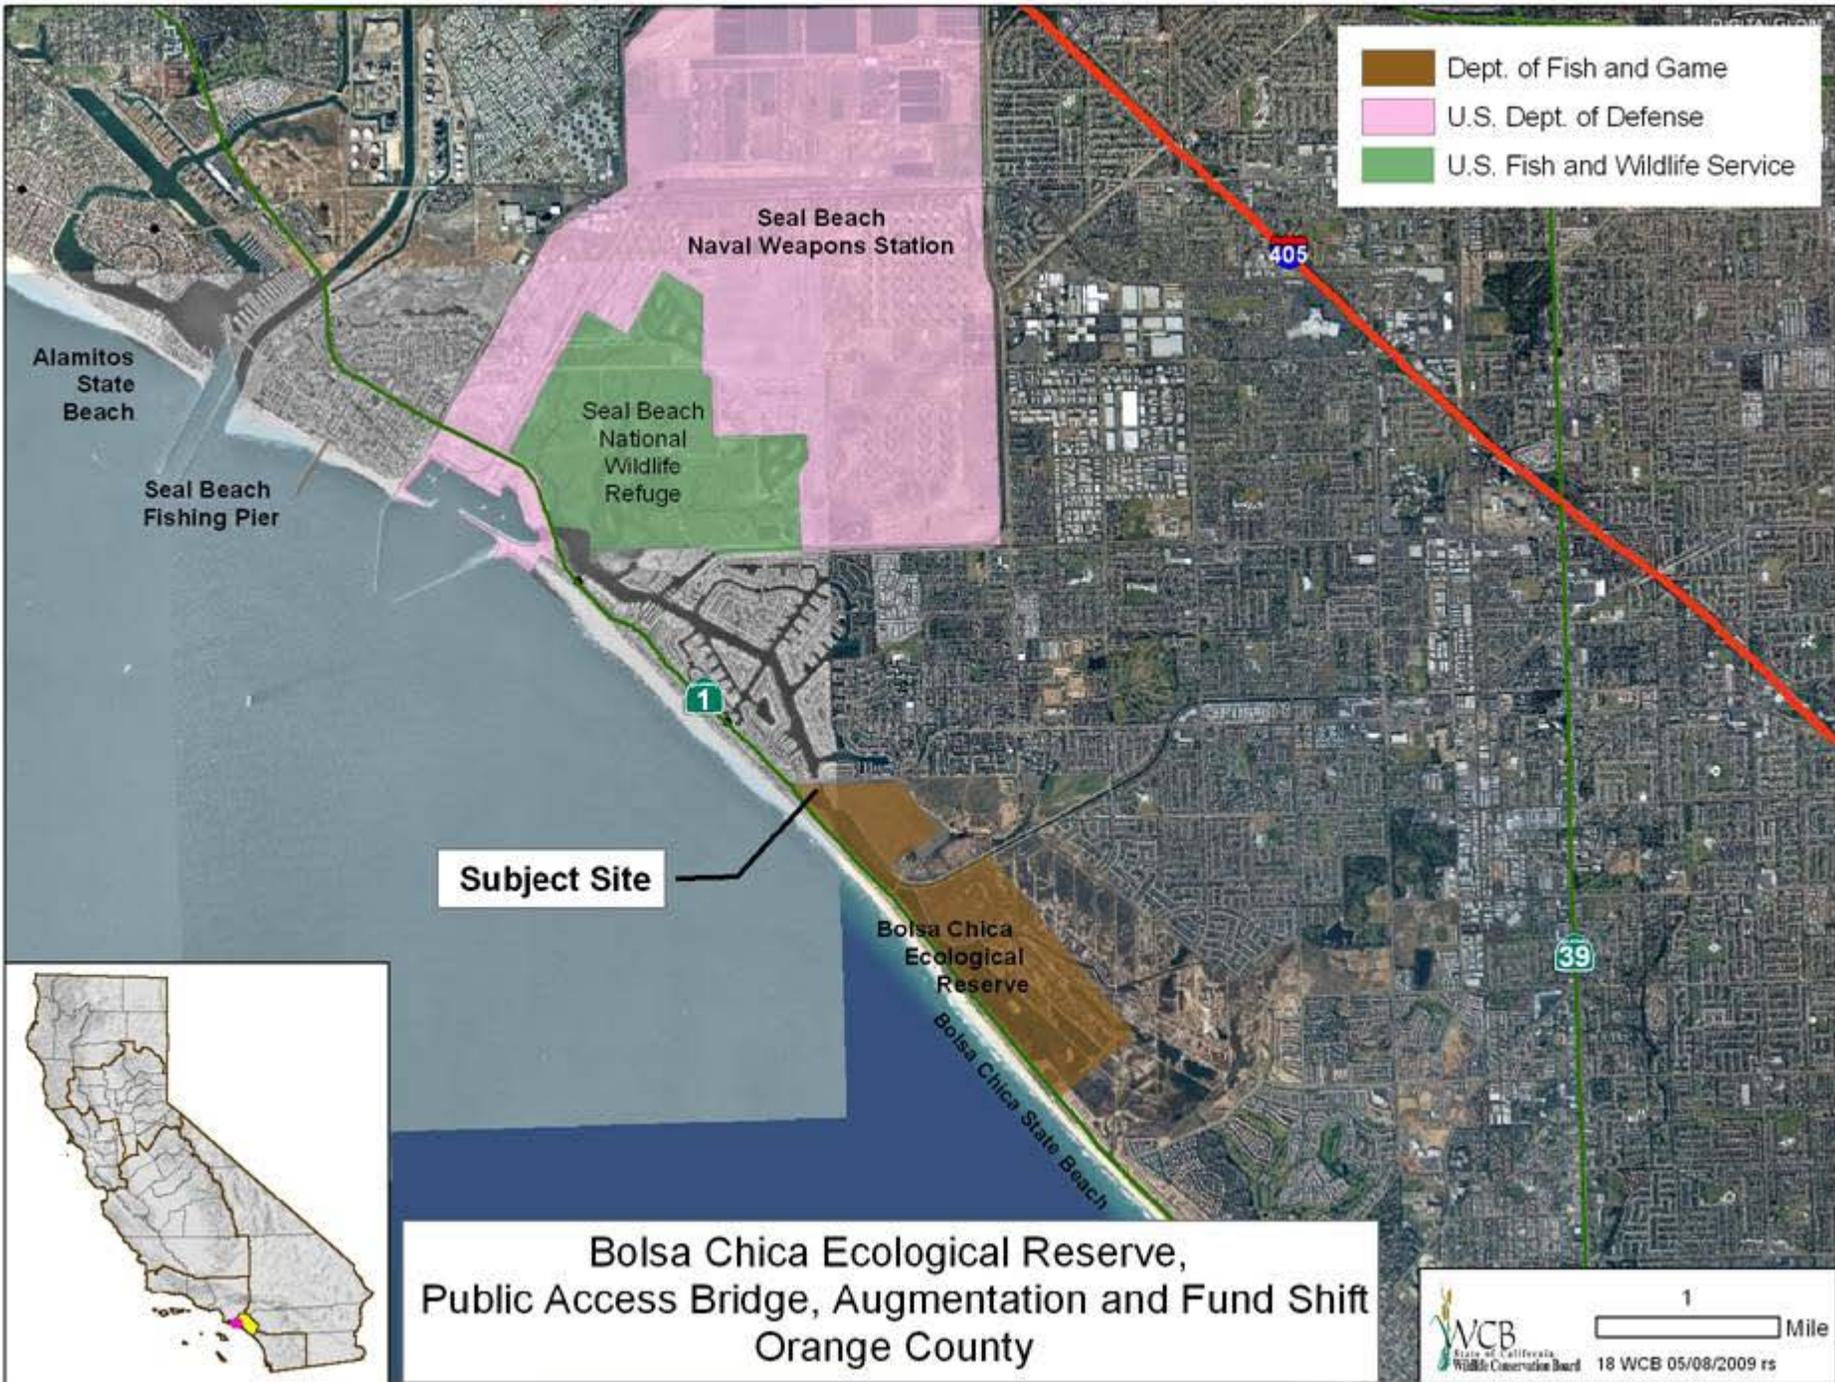

Existing seasonal wetlands at Widgeon, dry here in late summer, are well managed. Semi-permanent wetlands are just visible in distance. Proposed water delivery improvements will allow for enhancement of existing wetland habitat.
