In addition, the Commission formulates general policies for the Department of Fish and Wildlife and regulates aspects of commercial fishing. Monthly topical meetings are held to hear regulation change proposals. The public may make recommendations in writing before a Commission meeting or present its proposals verbally at the meeting. The Commission's meeting schedule, including specific topics, dates and locations, is posted on their web site [www.fgc.ca.gov](http://www.fgc.ca.gov). ## ONLINE HARVEST REPORTING

*Now, it is easier than ever to report your harvest:*

- Report your harvest online, using the Online License Service at [wildlife.ca.gov/reportcards](http://wildlife.ca.gov/reportcards); or
- Return your report card via mail to the address printed on the report card.

**Important Information – Read before you report online**

- Accurate and complete data is required. If you report online, all entries on the report card must be entered in the electronic form, including sport fishing reports of activity where no catches were made.
- Submission of report card data online must be completed within 20 minutes to avoid a system time out.
- Sport fishing report cards may be reported online only after the last day of the report card's validity.
- If you report online, you do not need to mail in your report card. You will be issued a report confirmation number. After reporting, please retain your report card for 90 days for survey purposes and write your report confirmation number on it. Once a report card has been reported, it may no longer be used in the field.

## INTERSTATE WILDLIFE VIOLATOR COMPACT

The Interstate Wildlife Violator Compact (IWVC) is an agreement between 26 states, which allows for the reciprocal recognition of hunting, fishing and trapping license suspensions. If your license privileges have been suspended by another state, the suspension may be recognized here in California. For example, if your sport fishing, hunting or trapping privileges have been suspended in Colorado for five years, your privileges may also be suspended for five years in California or any of the states participating in the IWVC.

The purchase of licenses or tags during the term of the suspension is a violation of the law and may result in prosecution. Licenses or tags purchased prior to or during a suspension are not refundable.

For further information contact the Department of Fish and Wildlife, Law Enforcement Division at 1416 Ninth Street, Sacramento, CA 95814, or (916) 653-4094.

# HOW TO USE THIS BOOK

## *Quick Steps to Finding the Correct Fishing Regulation*

---

It is important to note the waters where you intend to fish can have further take, method, gear and closure provisions for various freshwater species. Therefore, it is each angler's responsibility to verify the regulations for all species in their chosen location(s) and water(s), prior to sport fishing in California waters.

1) First familiarize yourself with the statewide regulations for General Provisions and Definitions, Fishing Methods and Gear Restrictions, Fishing Hours, and Bait Regulations listed on pages 11 to 18.

2) Next familiarize yourself with the General District Regulations on pages 29 through 31 that apply to the Sport Fishing District in which you will be fishing. To determine the Sport Fishing District, use the District Definitions listed on pages 27 and 28 and the state map at the end of the book.

3) If fishing for trout, steelhead or salmon: Consult the Alphabetical List of Waters with Special Fishing Regulations on pages 33 to 65.

A) If the water you intend to fish is on this list, follow the regulations as noted on these pages. If the water you are fishing is a tributary to any lake or reservoir, you must check under both the name of the stream/river and the connecting lake or reservoir.

B) If the water or the connecting lake or reservoir is NOT listed in the Alphabetical List of Waters with Special Fishing Regulations, then follow the General District Regulations listed in step 2.

4) If fishing for bass, sunfish, catfish, sturgeon, or any species other than trout, steelhead or salmon: Consult the Species Regulations on pages 18 through 27 and locate the regulations for the species you want to pursue. Be sure to also check the water where you intend to fish as additional take, method, gear and closure provisions may apply.

If you have any further questions, please contact the local regional office serving the county where you will be fishing. A regional office listing is on page 3.

## *Keeping Up With In-Season Regulation Changes*

2. Check the Department's News Room at [wildlife.ca.gov/news](http://wildlife.ca.gov/news) for any new announcements, or

# WHAT'S NEW FOR 2016?

## *Sport Fishing Regulation Changes*

### **NEW REGULATIONS FOR 2016:**

Sections 1.05 and 2.00 have been revised to make it clear that legally caught fish must be hooked "inside" the mouth (see pages 11 and 14).

New regulations in Section 1.57 define "landlocked salmon" to include kokanee and landlocked Chinook salmon. Under Section 5.41, landlocked salmon can be caught all year with a daily bag limit of 5 and a possession limit of 10 (see pages 12 and 22).

Section 5.80 has been amended to include a special closure to protect sturgeon in the Yolo Bypass. Sturgeon may not be taken in the Yolo Bypass, Toe Drain Canal and the Tule Canal upstream of the Lisbon Weir at any time (see page 26).

The Sacramento River closure at the Red Bluff Diversion Dam has been lifted. Anglers may now fish from shore or boat within 500 feet of the dam (see page 56).

Solano Lake is now open to catch and release fishing with artificial lures and barbless hooks all year (see page 60).

***There are other changes to the freshwater sport fishing regulations, so please review all of the 2016-2017 regulations pertaining to the species you intend to take.***

# FRESHWATER FISHING LICENSE INFORMATION

## RESIDENCY

A resident is defined as: any person who has resided continuously in California for six months or more immediately before the date of application for a license, or any person on active military duty with the armed forces of the United States, or an auxiliary branch, or a Job Corps enrollee. (FGC, Section 65)

## LICENSE PROVISIONS

Any person who is 16 years of age or older must have a sport fishing license to take any kind of fish, mollusk, invertebrate, amphibian or crustacean in California, except for persons angling from a public pier in ocean or bay waters. A sport fishing license is required to take reptiles, except for rattlesnakes. Anyone 16 years or older fishing anywhere in Lake Tahoe or Topaz Lake must possess either a California sport fishing license or a Nevada sport fishing license (Nevada also requires a trout stamp). Any person fishing from either side of the river or from a boat in the section of the Colorado River that makes up the California-Arizona border must have either a California sport fishing license or an Arizona sport fishing license.

## IDENTIFICATION REQUIRED FOR LICENSE PURCHASE (CCR T-14, SECTION 700.4)

Any person applying for any license, tag, permit, reservation or other entitlement issued via the ALDS shall provide valid identification. Acceptable forms of identification include:

- (1) any license document or GO ID number previously issued via ALDS
- (2) a valid driver's license or identification card issued to him or her by the Department of Motor Vehicles or by the entity issuing driver's licenses from the licensee's state of domicile
- (3) US Birth Certificate
- (4) US Certificate or Report of Birth Abroad
- (5) a Tribal Identification Card, issued by a sovereign tribal nation
- (6) Birth Certificate or passport issued from a US Territory
- (7) US Passport
- (8) US Military Identification
- (9) Certificate of Naturalization or Citizenship,
- (10) A foreign government-issued photo identification

Applicants less than 18 years of age may provide any form of identification described above, or a parent or legal guardian's identification as described above.

## TELEPHONE NUMBER REQUIRED FOR ANGLER SURVEYS

Anglers are required to provide their telephone number when purchasing a sport fishing license. Collection of telephone numbers allows California to comply with a federal mandate for purposes of establishing a National Saltwater Angler Registry and will prevent California anglers from having to pay an additional registration fee each year to the federal government. (CCR T-14, Section 700.3)

## LICENSE FORMATS

Licenses issued through the Automated License Data System (ALDS) are printed on durable thermal paper. They are waterproof, stainproof and tear resistant. All licenses are imprinted with your permanent ID number (GO ID). Your GO ID can be used to retrieve your customer information in the future.

Report cards issued through ALDS have a different look and size. All the information is printed on one side of the paper, so report cards can be quite long. They can be folded to fit in your wallet. You must use indelible ink to make entries on your report card.

## PROTECT YOUR LICENSE FROM HEAT

Licenses subjected to extreme or prolonged heat may darken and become difficult to read. To protect your license, keep it away from heat sources.

## PURCHASING A LICENSE FOR ANOTHER PERSON

Regulations provide that a person may purchase a hunting or sport fishing license, tags, or validations for another person, as long as the licensee's customer identification number issued from the ALDS and date of birth are provided. If a person wishes to purchase a sport fishing license for another person but does not have the required information, a gift voucher may be purchased for that person that may be redeemed for a resident sport fishing license. Gift vouchers are nonrefundable and valid only for the year specified. (CCR T-14, Section 705)

## REPORT CARD REQUIREMENTS

Anglers who are not required to have a sport fishing license, such as anglers who are under 16 years of age and anglers who will be fishing on Free Fishing Days, are required to have report cards to fish for:

salmon in the Klamath, Trinity and Smith rivers and their tributaries; steelhead; and sturgeon statewide.

### **RETURN OF REPORT CARDS IS MANDATORY**

Report cards must be reported online at [wildlife.ca.gov/reportcards](http://wildlife.ca.gov/reportcards) or returned to the CDFW at the address specified on the report card by January 31 of the following year. Any person who fails to report online or return his or her report card to the CDFW by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year. (CCR T-14, Section 1.74)

**A North Coast Salmon Report Card** is required for any person fishing for salmon in the Klamath, Trinity and Smith Rivers or their tributaries.

**A Steelhead Report Card** is required for any person fishing for steelhead trout in all anadromous waters where take is authorized.

**A Sturgeon Fishing Report Card** is required for any person fishing for sturgeon.

**A Second-Rod Validation** is required to fish with two rods in inland waters in any sport fishery in which the regulations of the Commission provide for the taking of fish by angling, except those waters in which only artificial lures or barbless hooks may be used.

### **POSSESSION OF LICENSE**

Every person, while engaged in taking any fish, amphibian or reptile, shall have a valid sport fishing license on their person in their immediate possession except when diving as provided in Section 7145 of the Fish and Game Code. (CCR T-14, Section 700)

Persons diving from a boat or shore may have their license on the boat or within 500 yards of shore, respectively. (FGC, Section 7145)

### **DUPLICATE SPORT FISHING LICENSES**

If you lose your sport fishing license and validations, visit any license agent, CDFW License Sales Office or log in to the license sales service at [wildlife.ca.gov/licensing/online-sales](http://wildlife.ca.gov/licensing/online-sales) to obtain a low-cost duplicate and validations. Duplicate Abalone Report Cards and Sturgeon Report Cards may only be purchased at CDFW license sales offices.

### **REFUND POLICY**

Refunds will not be issued for sport fishing licenses, vouchers, validations or report cards.

## **FREE AND REDUCED-FEE SPORT FISHING LICENSES**

CDFW offers reduced-fee sport fishing licenses to honorably-discharged veterans with a service-connected disability rating of at least 50 percent, to recovering service members, and to resident low-income seniors who are at least 65 years of age.

The term "recovering service member" means a member of the Armed Forces, including a member of the National Guard or a Reserve, who is undergoing medical treatment, recuperation, or therapy and is in an outpatient status while recovering from a serious injury or illness related to the member's military service. (FGC, Section 7150)

Disabled veterans and recovering service members can prequalify for reduced-fee sport fishing licenses via e-mail. To prequalify, e-mail your CDFW issued GO ID and a letter from the Veteran's Administration documenting your service connected disability rating of 50% or greater to [LRB@wildlife.ca.gov](mailto:LRB@wildlife.ca.gov). After your customer record has been updated, you will be able to purchase a reduced-fee fishing license anywhere licenses are sold.

Free sport fishing licenses are available to eligible persons who are blind; low-income American Indians; developmentally disabled persons, and residents who are so severely physically disabled that they are permanently unable to move from place to place without the use of a wheelchair, walker, forearm crutches, or a comparable mobility-related device.

Eligibility for free and reduced-fee sport fishing licenses will be verified. Applications and additional information are available and online at [wildlife.ca.gov/licensing/fishing](http://wildlife.ca.gov/licensing/fishing).

### **LICENSE SALES BY TELEPHONE**

Sport fishing licenses, validations, and report cards may be purchased via telephone from Active Network's telephone license sales line at (800) 565-1458. Items purchased by telephone sales will be delivered by mail within 15 days of purchase.

### **STAY CONNECTED TO CDFW**

Having your e-mail address and mobile number will enable the CDFW to send you information you can use, such as license renewal and courtesy report card deadline reminders, and California fishing information. When purchasing a license from a license agent or when you log in to the Online License Service, update your communication preferences and provide your e-mail address and mobile number.

Fish and Game Code, Section 1050.6, and California Government Code, Section 11015.5, prohibit the CDFW from selling or sharing your personal information with any third party.

# 2016 FRESHWATER SPORT FISHING LICENSE FEES

*Purchase Sport Fishing Licenses and Submit Harvest Information Online*

You can purchase California sport fishing licenses, report cards and validations online at [wildlife.ca.gov/licensing/online-sales](http://wildlife.ca.gov/licensing/online-sales). In addition, anglers can submit report card information online. Report cards provide important harvest data critical to helping fishery scientists better manage these fishing programs. Online report card submission makes reporting faster and easier. By providing harvest details more quickly, fishery managers can more promptly put the information to use. Standard mail reporting is still available and can be done through the address printed on the report card. To report online, go to CDFW's harvest reporting site at [wildlife.ca.gov/reportcards](http://wildlife.ca.gov/reportcards). The regulatory deadline to report harvest information is January 31 each year, even if anglers were unsuccessful or did not fish.

### CATCH AND RELEASE ZERO LIMIT WATERS

In waters where the bag limit for trout is zero, fish for which the bag limit is zero must be released unharmed, and should not be removed from the water.

### ANGLING REGULATIONS IN NATIONAL PARKS

Angling regulations in national parks may be more restrictive than State regulations. Anglers should check with the National Park Service to determine if seasons or bag limits differ from State regulations.

### COHO ALERT

Coho (silver) salmon may not be taken in any of the waters of the state, except in Lake Oroville, the Oroville-Thermalito Complex (Diversion Pool, Forebay, and Afterbay) and the Feather River from the Diversion Pool Dam to the Fish Barrier Dam. Incidentally hooked coho (silver) salmon, from all other waters must be immediately released unharmed to the waters where they are hooked.

### STEELHEAD ANGLERS!

All wild steelhead caught must be released unharmed. Wild steelhead are identified by having an intact adipose fin.

Hatchery steelhead may be kept in selected waters. Hatchery steelhead are identified by a missing adipose fin and a healed scar in the location of the missing fin.

#### Hatchery steelhead

missing adipose fin with healed scar.

#### Wild steelhead

intact adipose fin.

### STEELHEAD FISHING REPORT AND RESTORATION CARD

Anglers must have a nontransferable Steelhead Fishing Report and Restoration Card issued by the department in their possession while fishing for steelhead trout in anadromous waters. For purposes of this regulation, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters. Anglers must record, with a ball point pen, the month, day, location fished, number of steelhead caught and kept, and number of steelhead caught and released. Month, day and location must be recorded **EVEN IF NO STEELHEAD WERE CAUGHT.**

A report-restoration card shall be valid for the calendar year. When the card is completely filled-in, a person may purchase another card. Anglers are required by law to return Steelhead Fishing Report and Restoration cards to the Department of Fish and Wildlife by January 31 of the year following the card expiration. Example: 2014 cards are to be returned by January 31, 2015.

## HOW TO RELEASE FISH

*Follow these five points to release fish unharmed:*

1. Land your fish as carefully and quickly as possible.
2. Try to avoid removing the fish from the water. Underwater unhooking and release is preferred.
3. Do not squeeze the fish, or touch its eyes or gills.
4. Remove only those hooks that you can see and remove easily, otherwise clip the line near the mouth on deep hooked fish.
5. Use artificial lures (no bait) to minimize deep hooking. Barbless hooks or hooks with flattened barbs make unhooking easier and less stressful on the fish.

# Public Health Advisory on Fish Consumption

## FISH ARE NUTRITIOUS AND GOOD FOR YOU TO EAT

Fish are an excellent source of protein and beneficial fats, and are recommended as part of a healthy, balanced diet. It is important, however, to choose the fish you eat wisely. The Office of Environmental Health Hazard Assessment (OEHHA) provides the guidelines below. For more information, visit the OEHHA website at [www.oehha.ca.gov](http://www.oehha.ca.gov) (click on "Fish") or call (916) 327-7319 or (510) 622-3170.

The U.S. Food and Drug Administration (FDA) and the U.S. Environmental Protection Agency (EPA) issued a joint Federal Advisory for Mercury in Fish for fish you buy at stores and restaurants. The federal advisory can be found at <http://www.fda.gov/food/resourcesforyou/consumers/ucm110591.htm>.

## FISH PREPARATION AND CONSUMPTION

- Eat only the fillet portions of fish and the meat of crabs. Do not eat the guts or internal organs because chemicals usually concentrate in these parts. Also, avoid frequent consumption of any reproductive parts such as eggs or roe. If you make stews or chowders, use fillet parts.
- **Many chemicals are stored in the fat. When advisories are based on PCBs or pesticides (DDTs or dieldrin), skin the fish, when possible, do not eat the skin, and trim any visible fat to reduce the levels of these chemicals. Removing fat will not reduce mercury levels.**

## SAFE EATING GUIDELINES

OEHHA gives special guidelines for women ages 18-45 and children 1-17 years because children and fetuses are more sensitive to chemicals. Women over 45 years and men have less risk and can safely eat more fish, as shown below.

The consumption guidelines in the tables below are based on the chemicals noted in each table. Fish consumption recommendations in the following tables are provided as the **number of servings per week. A serving is about the size and thickness of your hand. Give children smaller servings.**

What is a serving?

For Adults

For Children

The recommended serving of fish is about the size and thickness of your hand. Give children smaller servings.

The consumption guidelines that follow for each species and area assume that **no other fish are being eaten** in the same week.

The following safe eating guidelines are for freshwater and anadromous waters only. OEHHA's guidelines for marine waters can be found in the California Department of Fish and Wildlife Ocean Sport Fishing Regulations at [www.wildlife.ca.gov/Regulations](http://www.wildlife.ca.gov/Regulations).

If you do not see the water body where you fish in the following tables, follow OEHHA's Statewide Advice for Eating Fish from Lakes and Reservoirs without Site-specific Advice (next page).

Rock Snot (Didymo) is an invasive freshwater alga that smothers streambeds and decreases fishing opportunities. Rock Snot clings to fishing gear, waders, boots, and boats.

### Always CLEAN, DRAIN, & DRY.

Clean gear thoroughly before leaving every waterbody.

Freeze gear a minimum of eight hours at 26°F OR dry completely and wait an additional 24 hours prior to the next use. *For more information on invasive species visit [wildlife.ca.gov/Conservation/Invasives](http://wildlife.ca.gov/Conservation/Invasives)*
