SUBJECT: Actions Proposed for Tribally Led and Co-Led Marine Protected Area Petitions

This memo is intended to transmit to the Department, for evaluation purposes, current descriptions of specific proposed actions in the five tribally led or co-led marine protected area (MPA) petitions under consideration by the Commission.

During its April 14, 2026 meeting, the Commission Tribal Committee received presentations from tribes that are leading or co-leading MPA petitions; the committee recommended that the Commission request the Department move forward with tribally led or co-led petition evaluations based on how the petitions, and individual actions contained within, were presented and described during the April 14 meeting.

At its April 15-16, 2026 meeting, the Commission supported the Tribal Committee recommendation and directed staff to submit to the Department the amended proposed actions for tribally led or co-led MPA petitions. Since the April meeting, the Commission held three regional meetings focused on MPA petitions, during which the five tribally led or co-led petitions were presented and petitioners reaffirmed the specific proposed actions as described on April 14.

Table 1 details the five tribally led or co-led MPA petitions and the specific actions requested in each, as presented in April and reaffirmed during the regional MPA petition meetings. The Department is asked to evaluate the five petitions consistent with the amendments summarized in the "Description, Effective April 15, 2026" column of the table. The Commission has requested that the Department complete and submit the evaluations to the Commission prior to, and present its recommendations during, the Commission's August 12-13, 2026 meeting.
