

**DFG State Wildlife Action Plan Climate Work Group**  
**Work Group Objectives/Tasks**  
**March 3, 2012**  
***DRAFT***

**Purpose:** Provide stakeholder input and support to thoroughly integrate climate change into California's State Wildlife Action Plan (SWAP) revision process.

**Objectives:**

1. Ensure DFG ecoregional teams are provided with the information necessary to adequately consider climate change issues
2. Identify a network of partners with climate expertise that can work with DFG ecoregional teams and partners to support the revision process.
3. Ensure climate change is effectively and appropriately integrated into the SWAP.

**Near term tasks:**

- Identify appropriate state-wide and regional climate change literature for review and inclusion
- Identify regional climate change contacts or individuals with expertise relevant to specific ecoregions.
- Work directly with ecoregional teams if desired

**Future tasks:**

- Review and finalize climate change overarching chapter for the SWAP
- Review and provide input on ecoregional teams climate strategies.
- Serve as a resource to DFG ecoregional teams on climate change
