RPA:E - R2 WA 23-016

Fish and Wildlife Technician

Final Filing Date: February 23, 2024

Contact: Jessica Lehman at

Jessica.Lehman@wildlife.ca.gov

Location: Butte and Sutter County

Comments: The selected individual will assist in the habitat development & infrastructure maintenance of Gray Lodge Wildlife Area. Some duties will include the operation of wheeled tractor, dozer, backhoe, grader and other equipment and vehicles. Use this equipment in connection with attachments such as discs, mowers, seeders, and scrapers in order to create and maintain wetland and upland habitat as well as the associated levees and access roads. Operate spray equipment and use herbicides to control invasive plants. Performs a variety of manual labor. Construction and routine maintenance and repair of buildings, facilities, vehicles, and equipment are common tasks. The construction and maintenance of fences and posting boundaries of the wildlife areas will be conducted. The incumbent will maintain area facilities and equipment, including buildings, shops, check stations, water control structures, irrigation devices, access roads, levees, and public use facilities. Maintain vehicle logs and equipment service records for all equipment and vehicles. Gray Lodge has a large public use program. During open seasons, incumbent will operate hunter check stations by issuing permits, effectively communicating with the public by answering their questions, identifying species and number harvested and recording/tracking harvest data.

RPA: NCR 23-011

Fish and Wildlife Technician

Final Filing Date: February 29, 2024

Contact: Anna Allison at Anna.Allison@wildlife.ca.gov

Location: Butte County

Comments: The California Department of Fish and Wildlife North Central Region Fisheries Program is looking for a Fish and Wildlife Technician to join our team to support salmonid monitoring projects on Butte Creek, the Feather River, and Sacramento River. Data collected from these monitoring efforts contribute towards a large-scale multi-agency effort to develop a juvenile production estimate for spring-run Chinook salmon in the Sacramento River Watershed. This is a unique opportunity to be involved in the conservation and management of spring-run Chinook salmon, a State and federally threatened species, in the Central Valley of California.

The successful candidate will be responsible for installation, inspection, maintenance, and repair of sampling equipment and gear, including, but not limited to rotary screw traps, fyke nets, and fish

passage monitoring systems; maintenance and repair of vehicles, vessels, and trailers; and assisting in the collection of environmental and biological data where needed. Additional job information can be found in the Duty Statement. This position is located in the North Central Region Chico Field Office with a team of passionate, hardworking, and dedicated staff.

RPA: NCR 23-012

Fish and Wildlife Technician

Final Filing Date: February 29, 2024

Contact: Doug Langley at Doug.Langley@wildlife.ca.gov

Location: Sacramento County

Comments: The Fish and Wildlife Technician (PI) conducts all aspects of fish culture of Rainbow Trout, Cutthroat Trout and Kokanee Salmon, which includes trapping, sorting, spawning, rearing, and transporting eggs and fish both at the American River Trout Hatchery and remote egg collection stations. The incumbent will also perform grounds, building, and equipment maintenance and repair. The successful candidate will be required to possess a valid California Driver's License (Class C) and must maintain a clean driving record. Incumbent must be willing to obtain a (Class A) California Driver's License. The position involves using a variety of specialized tools, meters, pumps, and vehicles to perform the duties.

RPA: MR 23-P02 to -P06

Fish and Wildlife Technician

Final Filing Date: March 3, 2024

Contact: Marc Heisdorf at Marc.Heisdorf@wildlife.ca.gov

Location: San Francisco, Sonoma, Santa Cruz, San Luis Obispo and Alameda Counties

Comments: (1 position available in each county listed) The Fish and Wildlife Technician will be responsible for collecting recreational fishery data and biological samples at public launch ramps, docks, piers, jetties and beach/banks sites using CRFS standardized survey protocols. Identifies finfish and invertebrates to species and collects fish lengths, weights and other biological data as needed. Conduct onboard sampling of Commercial Passenger Fishing Vessels. Performs data entry, reviews, edits, and submits data to field supervisor in a timely manner. Assisting the lead in supporting and training seasonal field staff. Uses basic computer applications to enter data into electronic databases and compile reports and conducts public outreach.

RPA: E-R6 LF 23-018

Fish and Wildlife Technician

Final Filing Date: March 13, 2024

Contact: Anthony Holland at Anthony.holland@wildlife.ca.gov

Location: Mono

Comments: Are you looking to be part of a dynamic team that protects the environment? The Department of Fish and Wildlife's Hot Creek Hatchery (HCH) is seeking a motivated individual to work as a Fish and Wildlife Technician located in Mammoth Lakes California. Under the general supervision of the Fish Hatchery Manager I incumbent will perform the skilled/semiskilled work at Hot Creek Hatchery in such tasks as: spawn fish, care for and transfer eggs, and incubate and hatch eggs; care for fry, prepare feed for and feed fish, and clean troughs and rearing ponds; treat fish for disease, inventory fish, load fish for transport, and transport fish; maintain facilities and equipment; monitor fish health and water quality; record information; and operate various vehicles, equipment, and tools. Assists with implementation of best practice when spawning, rearing, and distributing fish. Be a part of the Hot Creek Hatchery team while enjoying the mountainous terrain, clear air, and surrounding wildlife.
